

# Conseil européen de la recherche (European Research Council, ERC): ERC DMP

## Summary

Project Acronym

Project Number

Provide a dataset summary (*Several datasets may be included into a single DMP*)

*Recommendations:*

- Dataset reference and name
- Origin and expected size of the data generated/collected
- Data types and formats

## FAIR data and resources

1. Making data findable

*Recommendations:*

Dataset description: metadata, persistent and unique identifiers e.g., DOI

2. Making data openly accessible

*Recommendations:*

- Which data will be made openly available and if some datasets remain closed, the reasons for not giving access
- Where the data and associated metadata, documentation and code are deposited (repository?)
- How the data can be accessed (are relevant software tools/methods provided?)

3. Making data interoperable

*Recommendations:*

Which standard or field-specific data and metadata vocabularies and methods will be used

4. Increase data reuse

*Recommendations:*

- What data will remain re-usable and for how long
- Is embargo foreseen
- How the data is licensed
- Data quality assurance procedures

5. Allocation of resources and data security

*Recommendations:*

- Estimated costs for making the project data open access and potential value of long-term data preservation
- Procedures for data backup and recovery
- Transfer of sensitive data and secure storage in repositories for long term preservation and curation
